SKILLS

Programming Languages: Python, Java, JavaScript, SQL, C, C++, Linux/UNIX

AWS: S3, Lambda, IAM, Developer Tools

Web Development: Django, React, Application Programming Interface, HTML, CSS

Development Tools: Git

PROFESSIONAL EXPERIENCE

Amazon, Seattle, WA

Software Development Engineer Intern

May 2025-August 2025

- Developed automated **SQL database query jobs** to collect and scrape **200+ customer purchase samples daily** for E2E testing of Amazon purchase lifecycles, overcoming latency and partition size limitations to ensure unique daily samples.
- Secured sensitive customer data** by storing results in **encrypted S3 buckets** with secure deletion protocols, ensuring compliance with privacy and data protection standards.
- Implemented a **lazy caching mechanism** for serialized data resurrection, achieving up to **10× performance** improvements in end-to-end testing and reducing storage costs through smaller cached files.
- Designed and deployed an approval workflow that isolated testing mechanisms, reducing build times from **~4 hours to under 15 minutes**, and enabling advanced multithreaded and host-scaled testing for higher performance

Amazon Future Engineer Software Development Engineer Intern

May 2024-August 2024

- Utilized **Amazon S3 Cloud Services** and **Python API** to develop a software program that streamlined data management for various Amazon tools by allowing users to more efficiently collect, organize, and access data.
- Drafted over 1,000 lines of code in **Python** while working on a program aimed at enhancing the troubleshooting process.
- Coordinated with Amazon managers and leadership to tailor software requirements to meet the needs of multiple e-commerce teams.

On Ramps to Careers, Washington, DC

May 2023 – August 2023

Product Research & Development Intern

- Partnered with **Samsung** and **GoX Labs** to leverage marketing insights and engage **10+** industry and labor stakeholders, identifying new market opportunities within the stunt acting sector.
- Led a **4-person** research team to produce **5+** actionable product recommendations, improving usability by **15%** and enhancing field safety outcomes.

LEADERSHIP EXPERIENCE

Phi Iota Alpha Fraternity, Inc., Fairfax, VA

May 2025 – Present

President

- Successfully managed a \$6,000 annual budget, maintaining financial stability.
- Orchestrated cultural, educational, and professional events, enhancing organizational impact.

SHPE: Leading Hispanics in STEM, Fairfax, VA

September 2024 – Present

Vice President of External Affairs

- Relaunched the SHPE Jr. mentoring initiative to connect with 10+ motivated Latino High school students.
- Collaborated with SHPE chapters and corporate partners to design events and initiatives, such as mentorship programs and resume clinics, aimed at bolstering the academic and professional development of aspiring Hispanic STEM professionals.

Association of Latino Professionals for America (ALPFA), Fairfax, VA

September 2024 – Present

Community Outreach

- Organized leadership and networking events to empower aspiring Latino professionals and build relationships with corporate sponsors and community organizations.
